Environmental, Social, and Governance (ESG) Solutions

2025

The Growing Significance of ESG

POJK NO 51/POJK.03/2017

regulation issued by the Otoritas Jasa Keuangan (OJK) in Indonesia. It focuses on the implementation of sustainable finance for financial institutions, issuers, and public companies. The regulation aims to promote sustainable development by ensuring that economic activities consider environmental, social, and governance (ESG) aspects

Environmental

- Climate change
- Carbon emissions
- Pollution
- Deforestation
- Waste management

Social

- Human rights
- Labour standards
- Diversity, equity, inclusion
- Data privacy

Governance

- Conflicts of Interest
- Whistle-blower policy
- Risk management
- Accountability
- Boards composition

...by offering a one-stop ESG solution for your green initiatives

The Added Value of Our Solution

We aspire to help you
Grow your business
sustainably...

Definition of Sustainable Growth

"...growth that is repeatable ethical and responsible to, and for, current and future communities. And it's key to the long-term success of any business."

Equipping you for **ESG communication with various stakeholders**, including investors, customers, and regulators.

Understanding and **reducing your CO2 footprint**.

Reducing your cost of capital by accessing green financing options and improving share price.

Tracking your value chains to **comply with domestic and international product policies**.

PRODUCT PORTFOLIO

ESG REPORT

- Materiality Assessment for key **ESG Issues identification**
- Comprehensive **evaluation of current ESG practices**
- Report production **adhering to local regulations (OJK Reg.No.51/2017) and International Standards**

CARBON FOOTPRINT

- Advanced tracking to monitor **emissions across organization's entire value chain**
- Transparent reporting of **carbon footprints at institutional and product levels**
- Implementation of **initiatives to reduce carbon emissions**

ESG STRATEGY

- A thorough analysis of the **organization's ESG baseline**
- Benchmarking against **competitors and best-in-class standards**
- Implementing solutions to **enhance ESG ratings and reduce the cost of capital** through green financing options

TRACEABILITY TOOLS

- Comprehensive farm and risk assessments for each producer to **ensure alignment with compliance standards**
- **Support for diverse certification standards**, accommodating varying deforestation cut-off dates and meeting various regulatory needs
- Ensure compliance with the Roundtable on Sustainable Palm Oil (RSPO) standard oil production

With our ESG report, clients showcase sustainability, attract stakeholders, and comply with regulations

ESG REPORT

- Materiality assessment for key ESG issues Identification.
- Comprehensive evaluation of current ESG practices.
- Report production adhering to local Regulations (OJK Reg.No. 51/2017) and international standards

Benefits for Your Company

1. **Reputation Building:** Demonstrates a commitment to responsible business practices.

6. **Regulation Compliance:** Ensures compliance with regulatory requirements.

Product Outcome

ESG Report Workflow

Reduce client's CO2 emissions and strengthens relationships with value chains

CARBON FOOTPRINT

- Advanced tracking to monitor **emissions across organization's entire value chain**
- Transparent reporting of **carbon footprint at institutional and product levels**
- Implementation of initiatives to reduce carbon emissions

Benefits for Your Company

Gain visibility into your organization's environmental impact, including actionable recommendations to easily and effectively improve your bottom line. **Meet the demands of your business partners and make informed decisions by knowing your carbon footprint**

- CO2 certificated according to ISO 14064 (Organization) and ISO 14044 (Product)
- PDF Reports Generation
- Industry Carbon Footprint Benchmarking
- Auditable results
- Actionable recommendations

Product Outcome

Full-scale green transformation, Enhance ESG rating, and reduce financing costs

ESG STRATEGY

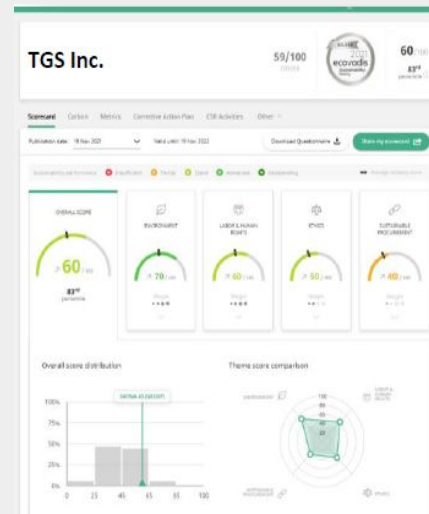

- A thorough analysis of the organization's ESG baseline
- Benchmarking against competitors and best-in-class standards
- Implementing solutions to enhance ESG ratings and reduce the cost of capital through green financing options

Benefits for Your Company

Enhance competitiveness with a holistic ESG transformation. Strengthen commercial relationships, lower financing costs with green bonds or offsets, boost stock price, and seamlessly integrate the strategy into business operations

- Using the Maturity Assessment Framework, Competitive Agility Index, and Arabesque S-ray Analytic for peer benchmarking
- Employing iterative methodology and design thinking workshops to conceptualize the organization's sustainability goals.
- Providing support for transitioning to circular practices, aligning with international frameworks (incl. Adv. Net Zero, TCFD, GHG, and others).

Product Outcome

ESG Strategy: Our customized approach to form a leading ESG strategy

KEY ELEMENTS OF OUR APPROACH

Ambitious Sustainability Goals and Holistic Benchmarking

- Our approach to materiality assessment involves examining ESG standards and industry practices in order to pinpoint areas of emphasis. Additionally, we will leverage the Arabesque S-ray analytics report to conduct peer analysis and gain valuable ESG insights

Assessment

- Using our maturity assessment framework, we will chart out all existing ESG initiatives. Furthermore, we will utilize Green0meter's Competitive Agility Index to compare the client's performance against its peers

Long term ESG Strategy

- To create and validate our ESG strategy, we will employ an iterative methodology. As part of this approach, we will facilitate design thinking workshops to conceptualize our sustainability goals and brainstorm potential flagship initiatives

Tracking tools, Comply with requirements for trading sustainable products

TRACEABILITY TOOLS

- Comprehensive farm and risk assessments for each producer to **ensure alignment with compliance standards**.
- **Support for diverse certification standards**, accommodating varying deforestation cut-off dates and meeting various regulatory needs (including EUDR policy).

Benefits for Your Company

Assisting exporters and importers in providing proof of origin for their products to **ensure the eligibility of product entry into importing markets**.

- Origin location validation via satellite imagery through cooperation with World from Space.
- User-friendly mobile app for tracking upstream production collection from farmers, eliminating the need for mobile data.
- Monitoring the entire value chain, from farmers to SMEs, traders, and large downstream operators, through one platform

Product Outcome

Cloud-based and user friendly platform manages the entire product suite

DATA

Data collection through questionnaires, APIs or invoices

EVIDENCE UPLOAD

Additional evidence upload (invoices, contracts)

DASHBOARD

Analytical overview dashboard with the key carbon accounting indicators

REPORTS

Automatically generated OJK ESG and CO2 reports after each latest data refresh

GOALS SETTING

CO2 and ESG goals setting and tracking

RECOMMENDATION

Targeted AI-generated emission reduction recommendations

OVERVIEW

Hierarchical overview of headquarters, entities, and local offices

AUDITOR ACCESS

Separate access with data packs for auditors

Streamlined Automated and Stress-Free Process

Manual calculation in excel

Automatic Calculation

Cluttered data

All data in one place

Complicated regulation

Up to date Methodology, CSRD, SFDR

Unused data in excel

Advanced data visualization

Uncleared impact of supplier and subsidiaries

Supply chain data gathering

Confusing decarbonization pathways

AI driven recommendation

- ESG One Stop Shop **online platform** helping companies **transition to sustainable company**
- Collaborating in **Europe and Asia**
- Serving clients with **ESG Reporting, Carbon Footprint, Sustainable Supply Chain Tracking, and ESG Strategy**
- Following **ISO and Bureau Veritas Certified Methodologies** for Sustainability Accounting
- Our partner is the **member of the KBC Group**, one of the largest and highest-quality banks in Europe
